SPECIAL OPERATIONS SEARCH KIT

The Special Operations Search Kit, which complements the Allen Vanguard range of special operations equipment, provides a combined visual search and search tool capability.

The Special Operations Search Kit gives EOD and Search personnel the capability to deploy with a compact but comprehensive range of Search equipment, that will enable them to carry out a wide range of search activities in the most demanding of environments and under hostile tactical conditions if required.

The Special Operations Search kit has been designed for military and law enforcement personnel. All the equipment is contained in a specifically designed backpack that offers a comfortable ergonomic design, combined with the practicality of equipment stowage.

SPECIAL OPERATIONS SEARCH KIT SEARCH SOLUTIONS

Features

The internal compartments are designed to hold a comprehensive range of Search equipment including: Search mirrors, metal detector, torches, sealing equipment, visual aids, protection equipment, tooling, and access equipment.

The equipment is laid out and designed to enable search personnel to gain access to the required grouping of equipment quickly and easily. The backpack has also been designed to allow for extra free space allowing search personnel to insert some of their own personal equipment if required.

The makeup and construction of the Special Operations backpack also makes it a suitable and comprehensive search kit for any conventional search team.

For freight movement and stowage of the main backpack and all ancillary equipment (chargers and consumables) an additional hardened air transport case is available upon request.
